PROJECTS

KOUKOUTSI ECO-MATERIAL | NEW WASTEMADE SUSTAINABLE MATERIAL

Our novel idea for a new material deriving from the final waste of the olive – a product massively found in the Mediterranean- is actually our vision of an evolving world that seeks rethinking for the living environments and the material we use in them.

Project page: <https://www.koukosdelab.com/koukoutsi>

LONDON DESIGN BIENNALE 2021 | Design in the Age of Crisis

Koukoutsi eco-material has been chosen for the physical exhibition out of 500 submissions from 50 different countries.

85th TIF | Past-Present-Future 09/21

Thessaloniki International Exhibition

LESVOS BENCH | A REVIVAL OF A TRADITIONAL PIECE OF FURNITURE

Lesvos Bench is a revival of a traditional bench. A simple piece of furniture, a part of everyday life in the island, so simple yet so essential. This new revived bench is designed with elements inspired from the past, enhanced with new features carrying the trend of the new era in design.
